If “NO” is checked just a few times and you are able to successfully manage your home environment, look at getting help to manage any areas of concern from:

1. A family member, trusted friend or neighbour;
2. Home care services.

At some point, you may need additional help - such as adult day programs, assisted living or long-term care.

**Basic Programs**
- for medically stable individuals that focus on socialization.

**Comprehensive Programs**
- for medically complex individuals requiring rehabilitation, social work and/or nursing.

To see how an Adult Day Program would benefit you, talk to your Alberta Health Services Care Manager or call 811.

Living in a Supportive Community is an attractive option for independent seniors who want to live in a community setting and also for seniors who may need some assistance with activities of daily living. Residents of supportive communities enjoy the convenience of meals, light weekly housekeeping, a personal response system, and life enrichment activities. Care services can be provided by Alberta Health Services.

THE HEART OF OUR CARING COMMUNITIES
We provide a variety of housing and care options, ranging from independent living to supportive living, long-term care, specialized dementia care and community services.

All of our communities are welcoming, safe and comfortable, but the true differentiator is our quality of care. We are dedicated to excellence in care delivery for all of our residents. Providing first-rate customer service is at the heart of all we do.

A PLACE TO CALL HOME
Finding a place to call home is a big decision, whether you are making the choice for yourself or on behalf of a loved one. Bethany provides appropriate care for every resident to live their life with dignity, respect and compassion. Most importantly, living at Bethany provides seniors and their families with freedom.

Every resident is unique and is treated as such. Our person-centered approach guides us as we work to meet the specific needs of our residents. Relationships are at the centre of all we do and creating positive relationships within our communities promotes healing and quality of life for all. Imagine having the independence to enjoy life and be engaged in the community. This is what life is like at Bethany.
LIFE AT BETHANY
We believe in providing holistic care of the mind, body and spirit. We also celebrate diversity and this is reflected in everything from the menu choices offered at our communities, to the faith and spiritual resources available to all residents.

Helping seniors achieve their full potential is our goal and we offer meaningful activities that align with their interests, needs, dreams and expectations. Here are a few of our services and therapy programs: occupational, recreational, music, pet and spiritual support.

Our employees and volunteers create our communities of caring. Our staff provides a multi-disciplinary approach to health care that includes physical, mental and spiritual well-being. Our employees are one of the reasons we stand out amongst other health care providers.

Volunteers are the heart of the Bethany community and contribute in diverse ways to the quality of life of our residents, helping to provide a variety of social and recreational opportunities.

Our approach to building quality teams, developing staff and creating meaningful relationships with our residents to provide quality care is working. Bethany is recognized as an employer-of-choice, achieving 15 top employer awards since 2000.

FAITH AT BETHANY
Spirituality is part of day-to-day life at Bethany. We are the only provider that includes a spiritual component as part of every resident’s assessment. Professional chaplains are part of our residential care teams and contribute to the care plans of our residents living in designative supportive living and long-term care.

Our chaplains and community faith partners, representing a wide variety of faiths and denominations, are available to provide spiritual support to all residents and their families throughout their stay with Bethany.

THERAPY

OCCUPATIONAL
We use activities to engage residents and promote health and well-being.

RECREATIONAL
Through a wide variety of activities, residents can socialize, have fun and even improve their mobility and motion.

MUSIC
The power of music improves the quality of life for residents, including increased cognitive stimulation, social interaction and the alleviation of depression.

PET
Connecting with animals is important and we welcome pets as visitors in all of our care environments.

SPIRITUAL SUPPORT
Worship, pastoral visitation, spiritual growth and fellowship opportunities are offered by staff chaplains and faith community partners.
Housing options provided by Bethany Care Society include affordable self-contained and fair-market priced housing properties for seniors and adults with disabilities who want to enjoy an active, independent lifestyle.

Affordable rental apartments provide independent seniors a quality place to live at rates that are geared to income or set below current market rents. Some properties offer affordable housing for adults and small families with reduced incomes.

Life lease suites at Sundance on the Green provide an attractive option for seniors who want to be part of an active retirement community in a condo-style setting. Life lease may build equity with buy-back at assessed fair-market value. Monthly fees are similar to a condominium fee.

Supportive living is an attractive option for independent seniors who want to live in a community setting, but require some support. People who reside in supportive living enjoy the convenience of meals, light weekly housekeeping and linen service. A 24-hour personal response system, as well as some recreational and social programs, are also included as part of the reasonable monthly rate. Home Care provided through Alberta Health Services.

Designated supportive living offers 24-hour support by health care aides and licensed practical nurses, in addition to the supportive living services noted above. Residents are referred to designated supportive living through Alberta Health Services, following assessment by a health care professional.

Long-term care programs provide around-the-clock professional care and support for people with complex health needs who are unable to remain at home or in a supportive living environment. Residents come to long-term care referred from Alberta Health Services, after being assessed by a health care professional.
